Yes please. Sorry just responded to lacy and not all. I approve.

Thanks
Bryan

Jason,
Can we please move forward with this ASAP?

Blessings,
Lacy

Jason,
I was trying to enroll the recently purchased HP 15" laptop, however due to it being Windows 11 Home it does not allow us to join to the school's domain. It also is demanding a Microsoft Account Sign in. We had a work around and were just going to download Windows 11 Pro, but then when we went to do so, it still wanted to require a Microsoft Account sign-in.

Is there a Pro Option for this laptop? If so, what is the price difference and could we exchange? Please provide all options you can recommend at this time.

Thanks,
Lacy
